DETAILED ACTION

This Office action is in response to the reconsideration received March 18, 2003.

1. The rejection under 35 U.S.C. 102(b) over WATANABE et al is **withdrawn** based on the deficiencies pointed out by applicant's attorney.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-21 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by CUNNINGHAM et al '863.

The claimed invention is drawn to a photopolymerizable composition comprising a polymerizable compound having an addition polymerizable unsaturated bond, an organic dye and a least one kind of an organoboron compound of General Formula (I).

CUNNINGHAM et al '863 anticipates the claimed invention at Example 36 wherein a polymerizable compound, an organic dye, and a borate compound as recited in the formula of claim 1.

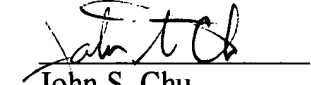

No claim is allowed.
